

# FINAL SEMINAR

Señorío de Bertiz, 22-23 October, 2015

## PROGRAMME

### Thursday 22 October

**9.00-9.20 Welcome.** Representatives of the Department of Rural Development, Environment and Local Administration of the Government of Navarre.

**9.20-9.35 Presentation of the LIFE TREMEDAL Project.** Jokin Larumbe-Arricibita. Habits Section. Government of Navarre.

**9.35-10.10 Classification of European peatlands for the purpose of conservation.** Borja Jiménez Alfaro-Masaryk University, Brno (Czech Republic).

### 10.10-10.30 Coffee Break

**10.30-12.00 The wetlands in the north of the Iberian Peninsula in the context of conservation.**

Moderator: Marco Rubinos. IBADER Institute of Lugo. University of Santiago de Compostela

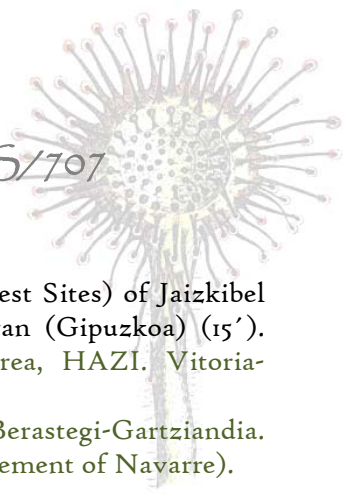

- Configuration and temporal dynamics of peatlands and wet heathlands in the north of the Peninsula (15'). Pablo Ramil-Rego. IBADER Institute of Lugo. University of Santiago de Compostela.
- Mapping and monitoring of habitats in the peatlands of Navarre (15'). Javier Peralta. Consultant Botanist.
- Blanket peatlands in the Basque Country, Cantabria and Burgos (15'). Patxi Heras and Marta Infante. Natural Science Museum of Vitoria-Gasteiz.
- Peatlands in the Pyrenees and in the Iberian System in the monitoring network of the LIFE RESECOM project (15'). Daniel Goñi. Larre Consultores. Jaca.

Any questions

**12.00-14.15 Good practices in the management and conservation of wetlands.**

Moderator: Pablo Muñoz-Habitats Section. Government of Navarre.

- Restoration of ombrotrophic peatlands in eastern Canada (15'). Eduardo González. Groupe de recherche en écologie des tourbières (GRET). Département de Phytologie, Université Laval, Québec, Canada.
- Life Jura peatlands, first works (15'). Emilie Calvar. Technical Coordinator of the LIFE Project. Conservatory of Natural Areas in Franche-Comté, Besançon, France.
- Sustainable management in peatlands in the Picos de Europa (Asturias and Castilla-León) (15'). Amparo Mora-Cabello de Alba-Picos de Europa National Park.
- Improvement in the state of conservation in continental wetlands of the Parga-Ladra-Támoga SAC (Special Area of Conservation) in Galicia (15'). Boris Hinojo-IBADER Institute of Lugo, University of Santiago de Compostela.

- Restoration of wetlands and peatlands in the LIC (Community Interest Sites) of Jaizkibel (Gipuzkoa), Lago Caicedo Yuso y Arreo (Álava-Araba) and Leizaran (Gipuzkoa) (15'). Francisco Javier Pérez. Natural Environment and Biodiversity Area, HAZI. Vitoria-Gasteiz.
- Conservation and restoration of peatlands in Navarre (15'). Asun Berastegi-Gartziandia. Coordinator of the LIFE TREMEDAL Project (Environmental Management of Navarre).

Any questions

## 14.15-15.30 Lunch

### 15.30-16.30 Conserving flora and fauna in continental wetlands.

Moderator: Jesús Valderrábano Luque-INDUROT/University of Oviedo.

- Ex situ conservation. Collecting, storing and long-term conservation of plant germplasm. (15'). Álvaro Bueno-Sánchez-Atlantic Botanical Garden/University of Oviedo.
- Odonates in peatlands in Navarre: Diagnosis and guidelines for management. (15'). Antonio Torralba, Biosphere.
- Water fowl in continental wetlands: reliable or opportunistic bioindicators on different scales? (15'). José María Fernández-García, Natural Environment and Biodiversity Area, HAZI. Vitoria-Gasteiz.

Any questions

### 16.30-17.30 Ecosystemic services of the wetlands and other functions.

Moderator: Francisco Javier Pérez. Natural Environment and Biodiversity Area, HAZI. Vitoria-Gasteiz.

- Ecosystemic services: concepts and applications. (25'). Miguel Ángel Álvarez and Laura García de la Fuente. INDUROT. Oviedo.
- Ecosystem service evaluation methods (20'). Amaia Albizua Aguinaco. BC3 – Basque Centre for Climate Change.
- Estimating the effects of LIFE+ Tremedal on the ecosystemic services. (20'). José María Fernández-García. HAZI, Vitoria-Gasteiz

Any questions

## 18.00 Closing Session

### Friday 23 October

#### 9.00-18.00 Field Visit

- 9.00 Departure from the Señorío de Bertiz to visit the Arxuri peatland, included in the Regata de Orabidea and the Arxuri peatland SAC (Special Area of Conservation), in the municipality of Baztan.
- 13.00 Lunch in Almandoz.
- 15.30 Visit to the Belate peatland.
- 18.00 Arrival in Señorío de Bertiz.
